

INTEGRAL, AGILE CONNECTIVITY

Connectivity services to support thriving businesses operating in an information intensive, connection dense economy.

The Information Age is characterised by a tremendous increase in information sharing and exchange within an interconnected, globalised and knowledge-driven economy. STT GDC's portfolio of connectivity services serves not only to facilitate, but also accelerate this sharing and exchange in our data centres, be it for interworking among internal systems, collaborating with business partners, or accessing telecommunications networks and cloud services.

Benefits

FLEXIBILITY

Minimal contractual lock-in with the option of monthly contract terms, and available across a range of bandwidths.

MANAGEABILITY

One provider, one bill to meet your multiple colocation and connectivity needs.

AGILITY

Order and manage services online via STT GDC's customer portal.

Connectivity Services For Your Business

CROSS CONNECT

Cross Connect delivers direct and reliable connections to multiple carriers, internet services and cloud service providers. Available in fibre and unshielded twisted pair (UTP), with a variety of connectors.

Fibre, UTP

Media Type

- Fibre:
- Single Mode Fibre
- Multi Mode Fibre

Interface Type

Fibre: SC, LC
UTP: RJ45

METRO CONNECT

Metro Connect is a secure and dedicated point-to-point connection between any STT GDC data centres or a STT GDC data centre and a carrier hotel in Singapore. Gain access to network service providers, business partners and a whole host of business opportunities.

Bandwidth Options

1 Gbps, 10 Gbps

Interfaces

1 Gbps: 1000BaseTX/SX/LX
10 Gbps: 10GBase-SR/LR

Network Topology

Point-to-Point

CLOUD CONNECT

Cloud Connect allows you to connect to the cloud securely through our partner, Megaport, a leading provider of SDN-based elastic interconnection solution. Experience on-demand agile and scalable connectivity to various Cloud providers such as Alibaba Cloud, Amazon Web Services (AWS), Google Cloud Platform, Microsoft Azure and more.

Bandwidth Options

From 1Mbps up to 10Gbps

Interfaces

1 Gbps: 1000Base-LX
10 Gbps: 10GBase-LR

Network Topology

Point-to-Point

DEDICATED INTERNET ACCESS

Dedicated Internet Access provides guaranteed bandwidth and uninterrupted connectivity to meet your business needs.

Bandwidth Options

From 10Mbps up to 10Gbps

IP Address Format

IPv4 and IPv6 available

Burstable Scheme

Yes

Interfaces

1G 1000BaseTX/SX/LX

10G 10GBase-SR/LR

IP TRANSIT

IP Transit offers expansive global reach with optimal performance for international connectivity coverage to multiple transit providers and Internet Exchanges.

Bandwidth Options

From 10Mbps up to 10Gbps

IP Address Format

IPv4 and IPv6 available

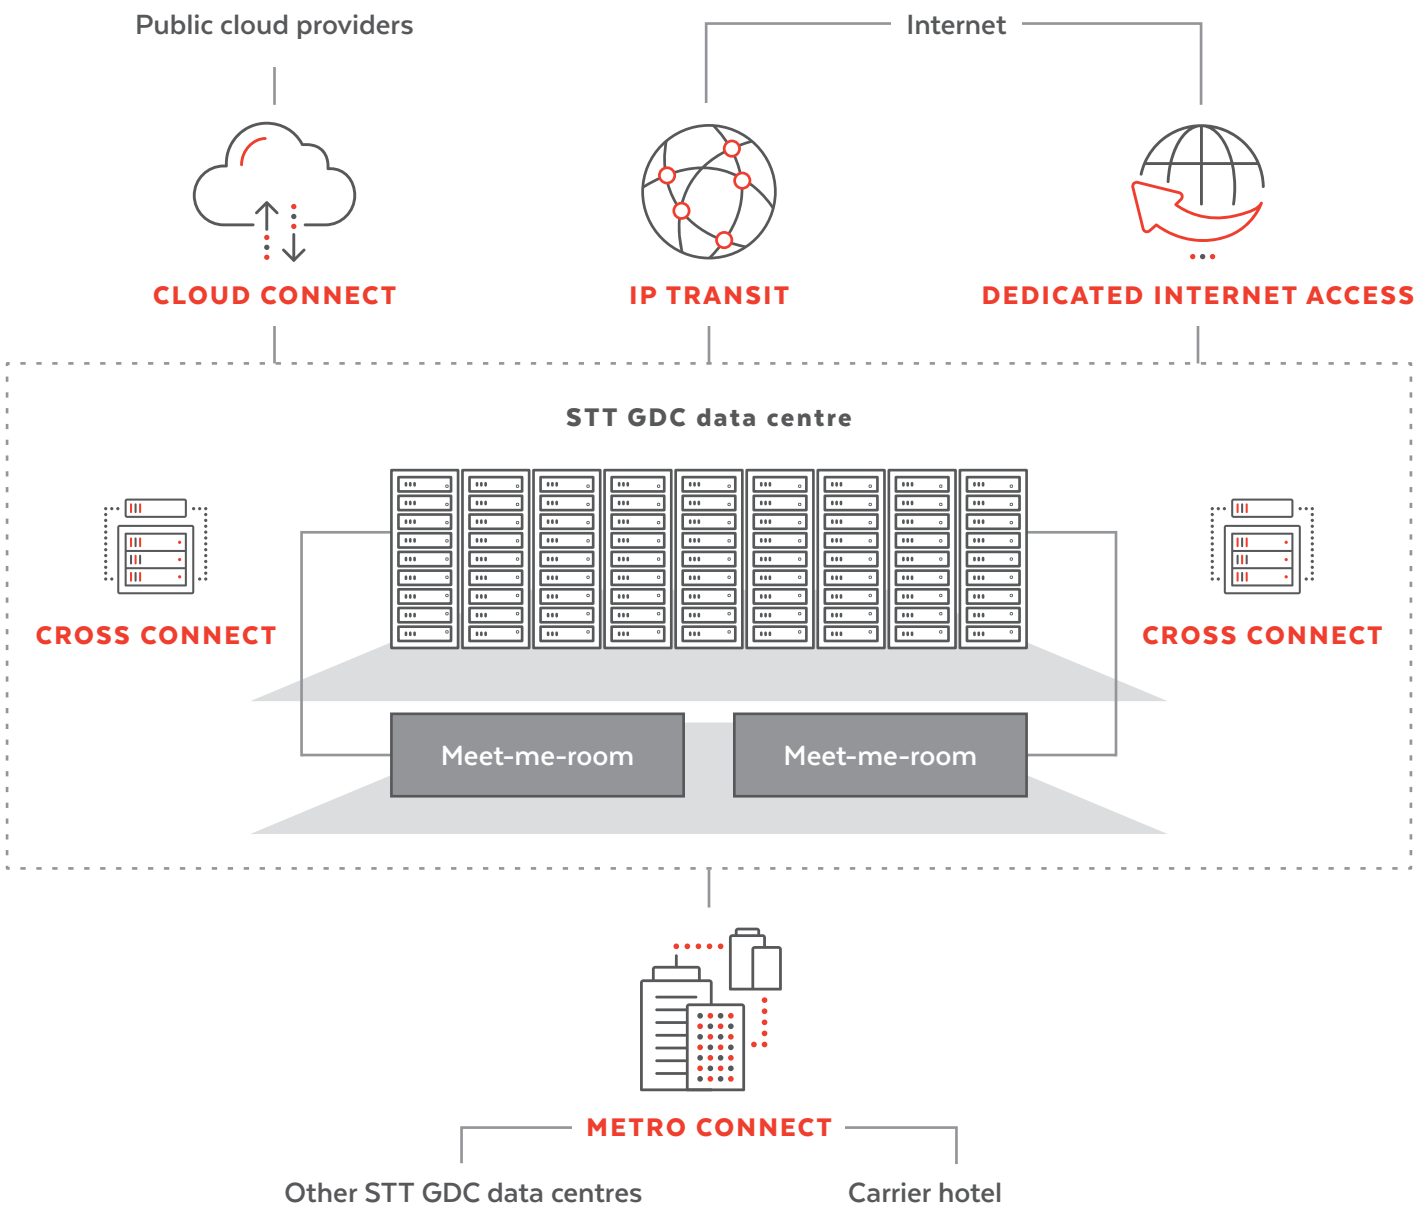

Burstable Scheme

Yes

Interfaces

1G 1000BaseTX/SX/LX

10G 10GBase-SR/LR
